We question whether they can be secured till the South shakes off her feeling of dependence upon the North. She cannot do that by her raile roads and manufactories alone. She wants her commercial marine; her extensive shipping in-terest—her commerce with foreign nations, by direct exportations and importations. She wants her hardy sailors and seamen, some of whom could be easily converted from the peaceful pursuits of commerce, into brave and hardy tars, to fight, if necessary, her battle's upon the ocean.-Augusta Constitutionalist

Sen . A Gar cons the principal Rail-Roads in the United States, the undersigned propose to establish agencies in this city and in New York, for the purpose of collect-ing full and authentic Rail-Road statistics and such other information as will enable them to serve persons desiring to invest in Rail-Road securities, or to procure information of any matters connected with the construction and administration of Railwith the construction and administration of Rail-Roads. They also propose, especially, to urge upon Congress a modification of the laws relating to contracts for carrying the mail, so as to authorize the Post Office Department to contract for the perpetual use of Rail-Roads, and, instead of paying, as now, quarrerly on contracts for four years, to advance in five per cent. bonds of the United States, chargeable upon the revenues of the Post Office Department, an amount, the interest upon which at 6 per cent. would equal the payments now made.

rest upon which at 6 per cent. Would equal the payments now made.

The government now pays \$300 per mile for carrying the mail on first class Rail-Roads. This is 6 per cent. on \$5,000. The undersigned would urge that, instead of paying \$300 a mile, per annum, the Department should deliver, on acontract in perpetuity, five \$1,000 bonds, bearing an interest of five per centum. At this rate the charge upon the Department would be reduced from \$300 to \$250 a mile, per annum, and the \$50 per mile saved would create a sinking fund which will, in a fewyears, pay offthe Bonds, and give the use of such roads forever thereafter, free of all charge; thereby effecting a vast saving on the present annual expenditures of the Po t Office Department, and a consequent reduction of the rates of postage.

The effect will be no less advantageous to Rail-Road Companies than to the government. For instance, such a contract would give to the Baltimore and Ohio Rail-Road Company more than \$2,000,000, which would enable that complete its road at an early day, and greatly increase its business and profits.

But to meet objections and impress the public ind with a proper sense of the benefits to result rom this measure will require concert of action and continued active effort, through the press and otherwise. The undersigned tender their services to your Company, expecting a reasonable comto your Company, expecting a reasonable compensation, partly contingent upon the success of the measure; and respectfully suggest the propriety of your sending one or more delegates to this city, on the first Wedensday in December next, to confer with delegates from other Rail-Road Companies, as to the details of the proposed arrangement and the best mode of bringing the subject before Congress.

Should it be your pleasure to accept of our services in this matter, we will promptly attend to all other business, which you, or your Company, may have with the Post Office Department, or other branch of the government.

Hoping to hear from you at your earliest convenience, we are, respectfully, your ob't serv'ts.

The adoption of Congress has given the Gione an official character as the reporter of all that is said and done in the body. This sanction has been voted at every successive session for many years, and by members of all parties. The press, too, of all parties has borne testimony to the fidelity with which the duty thus confided has been performed. The annexed notices, taken at random from the general expression in favor of the work, are submitted in proof of its fullness, fairness, and usefulness.
